Issue Date	4 January 2026
TMD version	5.0

About this document

This Target Market Determination (**TMD**) is required under section 994B of the Corporations Act 2001 (Cth) (Act). It describes the class of consumers that comprises the target market for the Loan Product and matters relevant to the Loan Product's distribution and review (specifically distribution conditions, triggers to review the target market and reporting requirements). Distributors must take reasonable steps that will, or are reasonably likely to, result in distribution of the Loan Product being consistent with the most recent TMD (unless the distribution is excluded conduct). It forms part of La Trobe Financial's design and distribution arrangements for the Loan Product.

This document is not a summary of the product features or terms of the Loan Product. This document does not take into account any person's individual objectives, financial situation or needs. Consumers interested in acquiring this Loan Product should carefully read the Letter of Offer (loan agreement) and other loan documents issued to them before deciding whether to proceed.

Description of target market for the Loan Product

The Consumer Attributes column in the table below indicates a description of the likely objectives, financial situation and needs of the class of consumers that are considering the Loan Product.

Category	Consumer Attributes
Consumer Type	Property developers (including individuals over the age of 18, partnerships, companies and trustees) looking to utilise completed but unsold stock in a property development to: - refinance existing debt - fund working capital; or - release equity for cash out. This loan provides the developer with time to sell the stock or use any equity released to fund further projects. An estimated interest budget is incorporated into the approved loan amount to cover loan repayments during the loan term of up to 2 years. Provided that the amount of accrued interest does not exceed the interest budget, no additional interest repayments are required during this period.
Likely Objectives and Needs	The Loan Product is likely to be suitable for consumers seeking the following: - a term loan secured by a registered mortgage over residential or commercial property; - rate fluctuations through variable rates (except if the rate is a fixed interest rate); - no requirement to make interest payments out of the consumer's own resources during the loan term unless the interest budget is extinguished, after which the consumer will need to pay interest charges.

Target Market Determination

	Interest Only/Rental Facility Fee Only Periods This product allows interest only repayments for a period of time, subject to a lending assessment. The purpose for which consumers with the above objectives and needs may seek to obtain this product include: • refinance existing property; • fund working capital; or • release equity in existing property for cash out, or for business related purposes. Please note cash out is not available for non-residents.
Likely Financial Situation	Suitable for consumers whose financial situation in relation to a property development enables credit (including a sufficient budget to cover interest repayments) to be provided over a period during which the residual stock can be sold down and who would have sufficient resources to either service the loan remaining (the residual debt) after the residual stock has been sold down or will be able to refinance, restructure or payout the residual debt.

Consistency of Loan Product's features with consumer attributes of Target Market

La Trobe Financial has assessed the Loan Product and formed the view that the Loan Product, including its key attributes summarised below, is likely to be consistent with the likely objectives, financial situations and needs of consumers in the target market, as the features of this Loan Product, including its key attributes, summarised below are likely to be suitable for consumers with the attributes summarised in Section 2 above.

Key attributes	Features	Suitable for Consumers within the Target Market
Acceptable security	Residential or commercial property within Australia that is able to be secured by registered mortgage.	Property developers looking to raise financing on residual stock in a development to obtain further time to sell their remaining stock using the financing raised to refinance (including through a refinance of existing issuer financial debt), release equity to fund other projects, use as cash out predominantly for investment or other use.
Maximum LVR	The maximum LVR is met in accordance with the requirements notified by the Issuer from time to time.	Each Loan Product is likely to be suitable for consumers seeking a loan within the LVR limits listed for each Loan Product.
Loan term	Up to 2 years.	This product is likely to be suitable for consumers looking to sell down a complete development over a period of up to 2 years.
Loan amount	The loan amount meets the stated minimum and maximum loan amount requirements notified by the Issuer from time to time.	Each Loan Product is likely to be suitable for consumers seeking a loan within the loan amounts listed for each Loan Product.
Repayment type	Interest only.	This repayment type is likely to be suitable for consumers looking to finance the interest payments for a period of time as part of the approved loan amount to free up available cashflow by not having to pay down the principal balance, and who are able to meet the additional servicing cost.

Target Market Determination

Interest rate	Variable or fixed.	This product is likely to be suitable for consumers looking for rate fluctuations through variable rates or a fixed interest rate. A variable interest rate means the applicable interest rate can increase or decrease during the loan term.
Distribution Conditions/restrictions		
Distributors this condition applies to	Distribution conditions	Distribution conditions rationale
Direct to Consumer	La Trobe Financial's sales and credit staff are required to be properly trained in DDO and undergo at least annual training. La Trobe Financial conducts a credit assessment on every loan application to ensure that the loan is capable of being serviced based on the consumer's stated financial situation. Only trained and accredited staff with the required delegated lending authority conduct each respective assessment and in accordance with the relevant laws and internal policies.	This distribution condition will make it more likely that La Trobe Financial's sales and credit staff will identify if a consumer is not within the target market. By virtue of this assessment, those consumers who enter into a credit contract for the product are highly likely to be in the class of consumers for which it has been designed.
Marketing	No Loan Product marketing, advertising or promotional material may be sent or made available by La Trobe Financial unless La Trobe Financial has completed an external communications compliance checklist.	La Trobe Financial has assessed that this distribution condition is likely to result in distribution to consumers who are likely to be in the target market because distributors using this promotional material will not be promoting the Loan Product in a way that could misrepresent the Loan Product or likely direct marketing to potential consumers outside the target market..
Third-Party Distribution	Legal Obligations All third-party distributors must meet all ongoing regulatory and disclosure obligations relating to their position in the market, including responsible lending obligations and best interests duty. Third-party distributors are required to hold an Australian Credit License or maintain an appointment as a credit representative authorised to engage in credit activities on behalf of a credit licensee. La Trobe Financial conducts a credit assessment on every loan application to ensure that the loan is capable of being serviced based on the consumer's stated financial situation. Only trained and accredited staff with the required delegated lending	Legal Obligations In relation to aggregators and brokers, La Trobe Financial has assessed that this distribution condition is likely to result in distribution to consumers who are likely to be in the target market because the aggregator or broker has its own obligations as a distributor to take reasonable steps that will or are reasonably likely to result in retail product distribution conduct being consistent with this TMD. Marketing, Advertising & Promotion La Trobe Financial has assessed that this distribution condition is likely to result in distribution to consumers who are likely to be in the target market because distributors using promotional material will not be promoting the Loan Product in a way

Target Market Determination

	authority conduct each respective assessment and in accordance with the relevant laws and internal policies. Marketing, Advertising & Promotion Third-party distributors may not use marketing, advertising or promotional materials that are inconsistent with La Trobe Financial's issued materials. Distribution Agreement Where a third-party distributor has entered into a distribution agreement with La Trobe Financial, each third-party distributor must meet on an ongoing basis La Trobe Financial's accreditation requirements and must comply with their respective distribution agreement.	that could misrepresent the Loan Product or likely direct marketing to potential consumers outside the target market. Distribution Agreement La Trobe Financial has assessed that this distribution condition is likely to result in distribution to consumers who are likely to be in the target market because requiring distributors to comply with relevant conditions of distribution aims to reinforce to the distributor that the Issuer is committed to its compliance with the DDO regime.

Reviewing this TMD

This TMD will be reviewed by La Trobe Financial on both:

- a scheduled basis with reviews to be completed before the end of the maximum period for review specified below; and
- where a Review Trigger (as defined below) has occurred.

Mandatory TMD review periods

Reporting requirements	Maximum period for review
Initial review	Not applicable
Subsequent Review	4 April 2027, being 1 year and 3 months from the date of the previous TMD review.

Note: The review period allows for the collection of data for 12 months, plus three months for the completion of the review.

Review Triggers

The events and circumstances described below (**Review Triggers**) will also require a review of this TMD:

- material change to the terms or attributes of the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate;
- where and when the Loan Product is not being distributed and purchased as envisaged by this TMD which the Issuer reasonably considers indicates that this TMD is no longer appropriate;
- an event or circumstance that would materially change a factor considered in making the TMD for the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate;
- reporting from distributors of one or more 'significant dealings', multiple distributors of 'significant dealing' (see section 6 below) of the Loan Product or numerous reports from one distributor of 'significant dealings' of the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate;
- determination by the Issuer of a 'significant dealing' (see section 6 below) of the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate;
- material or unexpectedly high number of complaints (as defined in section 994A(1) of the Act) about the Loan Product or the distribution of the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate;

Target Market Determination

- a reportable situation (as defined in section 912D of the Act) has been reported in relation to the design or distribution of the Loan Product and which the Issuer reasonably considers indicates that the TMD may no longer be appropriate;
- regulatory inquiry by AFCA, ASIC or another regulatory authority as to the design or distribution of the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate; and/or
- the use by ASIC or other regulators of Product Intervention Powers, regulatory orders or directions that affect the Loan Product which the Issuer reasonably considers indicates that this TMD is no longer appropriate.

The above review triggers do not limit the Issuer's obligations under s994C(3)(ii) of the Act. When a review trigger has occurred, this TMD will be reviewed within 10 business days.

Reporting and monitoring this TMD

The following reporting requirements apply to all distributors of the Loan Product:

Reporting requirements	Reporting period
Where the distributor is aware or ought to reasonably be aware, it should report on each 'significant dealing' outside of the target market, under section 994F(6) of the Act (see guidance below) by completing the Notification of Significant Dealing Form and submitting it to: targetmarketdistribution@latrobefinancial.com.au .	As soon as practicable but no later than 10 business days after the distributor becomes aware of the 'significant dealing'.
Distributors must report to La Trobe Financial (at targetmarketdistribution@latrobefinancial.com.au): • if required by law, whether the distributor received complaints in relation to the Loan Product during the reporting period; • the number of complaints it received; and • include, with its report, a copy of each complaint (as defined in section 994A(1) of the Act) (to the extent permitted under privacy and other laws), or where this is not possible, report on the content of each complaint.	On a quarterly basis and for each quarter as soon as practicable but no later than 10 business days following the end of the quarter.

Section 994F(6) of the Act requires distributors to notify the Issuer if they become aware of a significant dealing of the Loan Product that is not consistent with the TMD. Neither the Act nor ASIC defines when a dealing is 'significant' and distributors have discretion to apply its ordinary meaning.

The Issuer will rely on notifications of significant dealings to monitor and review the Loan Product, this TMD, and its distribution strategy, and to meet its own obligation to report significant dealings to ASIC.

Dealings outside this TMD may be significant because:

- they represent a material proportion of the overall distribution conduct carried out by the distributor in relation to the Loan Product, or
- they constitute an individual transaction which has resulted in, or will or is likely to result in, significant detriment to the consumer (or class of consumer).

In determining whether a 'significant dealing' has occurred, La Trobe Financial expects that the following non-exhaustive list of factors may be relevant for distributors:

- the nature of the Loan Product; and/or
- whether a customer outside of the target market has acquired the Loan Product; and/or
- the extent to which the acquisition of the Loan Product by the customer outside of the target market has the potential to harm or has caused harm (including the amount of any financial loss); and/or

Target Market Determination

- the nature and extent to which the distribution of the Loan Product is inconsistent with the TMD.

The above list is not exhaustive and distributors should consider, having regard to the circumstances of their business, whether other factors or events may suggest that a significant dealing has occurred. A significant dealing may be identified through the distributor's product governance arrangements, as a result of a consumer complaint or the occurrence of a Review Trigger.
